

## COFFEE INDUSTRY – WEST JAVA

### Project Description

International Coffee Organization (ICO) (2015) shows the growth of coffee drinkers in Indonesia is growing rapidly, more than the world growth, which is 8% for the growth of Indonesian coffee drinkers while the growth of world coffee drinkers reaches 6%

According to The Association of Indonesian Coffee Exporters and Industries (AEKI), national coffee consumption growth increased from 0.8 kilograms per capita to 1.3 kilograms per capita

The global challenge of the coffee industry today is the production deficit, ie in recent years (2005-2016) consumption has exceeded production capacity
