

COCOA INDUSTRY – WEST JAVA

Project Description

Cocoa consumption trends are increase every year, especially in developed countries. Indonesia is the third largest cocoa producer in the world, after Ivory Coast and Ghana. Most of the Indonesian cocoa producing areas are located outside the island of Java. However, cocoa processing industry many are on the island of Java. These conditions make it an opportunity for the development of the cocoa industry on the island of Java, especially West Java.

PT Perkebunan Nusantara VIII is currently developing a non-core business, including the development of a Cocoa Plantation. PT Perkebunan Nusantara VIII invites investors to join in developing the cocoa industry in West Java on the principle of mutual benefit.
